# Chief Justice Renato Corona

THE SUPREME COURT has been a source of controversy since its creation. It has been accused of being a rubber stamp for the executive branch, of being a political tool, and of being a source of corruption. But now, under Chief Justice Renato Corona, it has become a source of hope.

Corona's tenure has been marked by a series of landmark decisions that have strengthened the rule of law and protected the rights of the people. He has shown a willingness to stand up to the powerful and to uphold the principles of justice.

One of his most notable decisions was the ruling on the constitutionality of the Anti-Redeemable Mortgage Law. He declared the law unconstitutional, protecting the rights of borrowers and preventing the kind of predatory lending that had been rampant.

Corona has also been instrumental in the impeachment of President Arroyo. He has shown a commitment to the integrity of the judiciary and to the separation of powers.

His leadership has inspired confidence in the judiciary and has shown that the Supreme Court can be a force for good in the Philippines.

Boston Celtics' Paul Pierce (15) shoots a shot during the game against the Orlando Magic.

# Celtics seize 3-0 edge vs Magic

By [Name] Staff Writer, 4/11/2000

Boston Celtics seized a 3-0 lead over the Orlando Magic on Wednesday night, winning the first game of their first-round playoff series. The Celtics, coached by Doc Rivers, dominated the game from start to finish.

The Celtics' offense was on fire, with Paul Pierce leading the way. Pierce scored 25 points, including a clutch three-pointer in the fourth quarter. Ray Allen also contributed with 18 points and several key assists.

The Magic, led by Tracy McGrady, struggled to keep up. McGrady scored 20 points, but the team's defense was unable to contain the Celtics' attack. The Celtics' defense was also solid, with Reggie Miller and Kevin McHale providing strong support.

The game was a defensive battle in many ways, with both teams shooting poorly from the field. However, the Celtics' free-throw shooting was a key factor in their victory. They made 15 of 20 free throws, while the Magic made only 10 of 20.

The Celtics' victory gives them a 3-0 lead in the series. They will play the Magic again on Friday night. The Celtics are looking to close out the series in two games.

The Celtics' victory was a testament to their teamwork and execution. They played as a unit, with everyone contributing to the win. The Magic, on the other hand, seemed disjointed and struggled to find their rhythm.

The Celtics' coach, Doc Rivers, praised his team's performance. "We knew we had to win this game to move forward. We executed our game plan perfectly. We were disciplined and focused. We were happy with the result."

The Magic's coach, Stan Van Gundy, was disappointed with his team's performance. "We didn't play well tonight. We were out of sync. We didn't execute our game plan. We need to go back and watch the tape and see where we went wrong. We'll be back on Wednesday night."

The Celtics' fans were ecstatic about the win. They celebrated on the streets of Boston. The Celtics are now one step closer to winning the NBA championship.

# Pepsi reports 9% jump in net profit to P531M

High sugar prices trim Jan.-March income

By Tim Pappas

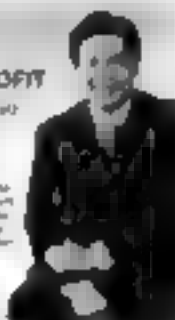

PEPSI CO. (NYSE:PEP) reported a 9% increase in net profit to \$531 million for the first quarter of 2006, compared to \$487 million in the same quarter last year. The increase was primarily due to higher operating income, which was boosted by higher sales volume and higher prices. However, the increase was partially offset by higher expenses for raw materials, particularly sugar, which is a key ingredient in Pepsi's beverages.

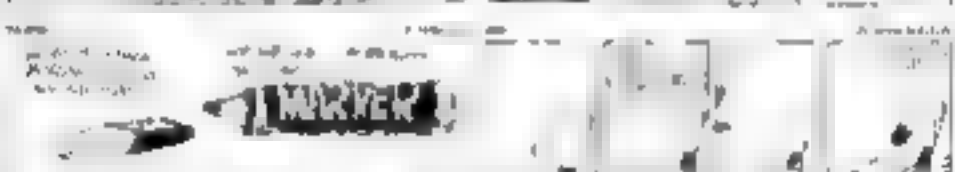

Figure 1. A schematic diagram of the experimental design. The diagram shows a sequence of events: a subject is presented with a stimulus (a word or picture), then a response is recorded (a button press or verbal response), and finally a feedback is provided (a tone or visual feedback). The sequence is repeated for multiple trials, with the stimulus and response being varied across trials. The diagram also indicates the timing of the events, with a 1000 ms interval between the stimulus and the response, and a 1000 ms interval between the response and the feedback.

Almost four years following the Japanese attack on Pearl Harbor, the United States entered World War II. The war was a turning point in the history of the United States and the world. It was a time of great sacrifice and heroism.

During the war, many Americans served in the military. Some were killed, some were wounded, and some returned home with physical disabilities. The war had a profound impact on the lives of many Americans.
